

Are you thinking about replacing your PBX?

Crocker Managed Voice is a reliable and cost-effective business phone solution geared towards meeting the communication demands of small to medium sized business. Now Crocker makes it possible to lower your total cost of ownership while adding state-of-the-art features and flexibility of a Hosted PBX VoIP (Voice over Internet Protocol) solution.

With Crocker Hosted PBX you'll enjoy:

- ✓ Low Maintenance – No expensive on premise equipment to maintain.
- ✓ Long Term Savings – No more leases or expensive on site technician visits.
- ✓ Connectivity – Find Me/Follow Me feature sends call to alternate locations
- ✓ Flexibility – Users can be moved , added, changed on the fly
- ✓ Enhanced Productivity – Work remotely and spend less time commuting
- ✓ Disaster Recovery – Phone service is rerouted and available instantly.

Crocker Hosted PBX is a full featured phone solution that provides telephone communications with state-of-the-art VoIP technology delivering reliable voice services that are flexible enough to meet the needs of any organization.

Crocker has built a reputation of stability and reliability as an Internet Service Provider. Now we are offering you a *cost effective alternative* to traditional office phone systems and service providers.

Is Crocker Hosted PBX right for *your* business?

- Is your PBX leased or over 5 years old? Does it require frequent maintenance?
- Does your PBX lack productivity features such as Find Me/Follow Me?
- Is your PBX near or at capacity?
- Does your business have multiple locations communicating long distance?
- Are your employees road warriors?
- Does your office set up require frequent phone moves or changes?

If you've checked any of the boxes above, call our Network Sales Engineer, Tom Poulin for a consultation. 1-800-413-LINE or email sales@crocker.com.

Let technology work for you.
